Professional Summary

I am a passionate and technically proficient Full-Stack Developer with hands on experience in web application development, spanning both frontend and backend technologies. Skilled in Next.js, React, Node.js, MongoDB, PostgreSQL, and TypeScript, I have successfully built full-fledged e-commerce platforms, real time chat applications, and movie apps. With a strong foundation in software development and practical experience through internships and college incubation programs, I deliver scalable, user-centric, and performance optimized solutions. I am driven to create seamless digital experiences while continuously expanding my expertise in modern web technologies.

Technical Expertise

❖ Programming & Web Development

- **Languages:** JavaScript, TypeScript, Python, HTML/CSS
- **Frameworks/Tools:** React.js, React Native, Next.js, Node.js, Express.js, Tailwind CSS, Bootstrap, Figma, Photoshop
- **Database:** PostgreSQL, MongoDB
- **Version Control:** Git, GitHub

Professional Experience

I. Frontend Developer

New Summit College

2024 – 2025

- Participated in my college 's incubation program, gaining hands-on experience in project management and development.
- Created UI to enhance usability and performance.
- Collaborated with the backend to make fullstack systems.

II. Next.js Developer

VolgAi

2025 – 2025

- Did a 4 months internship in Nextjs.
- Convert the design in pixel perfect code.
- Learned various real world techniques, worked with QA, designer and backend developer and integrated beautiful UI made with Next.js and tailwind CSS.
- Did various Full stack projects in Next.js.

Education

Bachelor in Science, Computer Science and Information Technology (*Ongoing 8th semester*)
Tribhuvan University, New Summit College, Shantinagar, Kathmandu.

Higher Secondary Education
Kanjirawa

Secondary Education (SEE)
Glory English Secondary School

Personal Projects

I. **Ecommerce App**

- A multi-vendor ecommerce platform built using Next.js, Tailwind, Clerk, Prisma, Imagekit, PostgreSQL, also integrated Gemini API to auto generate title and description when adding products.

II. **Chat App**

- A full-fledged chat application built using MERN technologies, Tailwind, DaisyUI and Socket.io.

III. **Movie App**

- A web app for viewing new movies and getting similar recommendation built using Next.js and TMDB API for fetching movies and recommendations.

Also learned react native and done some projects like expense tracker in react native, used clerk for the authentication flow.

Soft Skills

Critical Thinking

Analytical Problem Solving

Leadership and Team Coordination

Technical Communication
